**PRESIDENT** Rescued system at the FCC for the handling of the "Family Media Institute for All"

# NPC divided into Poe, Macapagal factions

The NPC has 62 members in the House of Representatives and at least 20 percent, it is believed, will support the outgoing Liberal Christian Missionary Movement.

It is believed that the NPC will be divided into two groups: the Poe and Macapagal factions. The Poe faction is believed to be the larger of the two, with Poe being the party's mainstay.

## Local politics

Senator Rodolfo B. Duterte has been named to replace an outgoing congressman under the NPC.

He explained that he decided to take a leave of absence as NPC congressman and to continue his senatorial duties. He said he would not be running for reelection in 2004.

Senator Duterte said he had informed party leaders, including Oligan, who is the chair of the Senate, about his decision to go home.

Duterte gave no indication of whether he would be running for reelection in 2004. He said he would be running for reelection in 2004.

Rep. Rodolfo Duterte (Dagupan), one of the Duterte family, said he would be running for reelection in 2004. He said he would be running for reelection in 2004.

He said he would be running for reelection in 2004. He said he would be running for reelection in 2004.

## Local politics

The last part of the Philippine Daily Inquirer has been named to replace an outgoing congressman under the NPC.

He explained that he decided to take a leave of absence as NPC congressman and to continue his senatorial duties. He said he would not be running for reelection in 2004.

Rep. Joseph Duterte, Sr., is, in fact, seeking reelection. He said he would be running for reelection in 2004. He said he would be running for reelection in 2004.

He said he would be running for reelection in 2004. He said he would be running for reelection in 2004.

## Suicide attacks to unite Kurds, say leaders

**ERBIL, Iraq**—The twin suicide bombings that killed at least 54 people in the country's main civil Kurdish parties allied to the United States will only serve to unite them and recognize their resolve for self-rule within a federal Iraq, their leaders say.

The twin bombings, attacks on Sunday killed many of the top leaders of the two parties, who were gathered in great numbers at ordinary Kurds on the first day of the two-day Eid al-Adha, or the Feast of Sacrifice, in Erbil.

More than 250 people were in-

jured in the two-party offices, 11 are again in the hospital of Erbil's minority Kurds who have been the most supportive of the U.S. invasion and occupation.

Most leaders in Erbil struck on a 12-story supply house in Erbil south of the capital Baghdad killed one

and injured 12 including two activists. Another leader was killed today and two others were killed in the bombings.

The suicide attacks were carried out by two men dressed in Islamic clerical robes with explosives wired to their bodies. Kurdish television said.

One of them passed the explosives to the female Democratic Party's chairman, who was killed, and the other ran into the office with a handgun. One of the bodies contained the exploding bomb.

Curds said they did not watch the explosion because of the location of the bombing, but they said it was about 10:40 a.m. The two leaders, standing next to a line of well-wishers, wanted to shake hands with Kurdish leaders, Gen-

erally, and embrace.

While one of the attacks came down from the offices and the other and both leaders were killed in the bombings. One of the bodies contained the exploding bomb.

The U.S. leadership took the bombings as a sign of the Kurds' resolve to unite. The U.S. leadership took the bombings as a sign of the Kurds' resolve to unite. The U.S. leadership took the bombings as a sign of the Kurds' resolve to unite.

Most Kurds, but some are still with the majority in the Kurdish administration. The U.S. leadership took the bombings as a sign of the Kurds' resolve to unite.

## Bush orders intel failures investigated

**WASHINGTON** — President George W. Bush, under mounting pressure, will sign an executive order to establish a full-blown investigation of U.S. intelligence failures in Iraq, a senior White House official said.

The investigation will look at what the United States believed in June before the war against Saddam Hussein's regime and what has been determined since the invasion. Bush said the investigation is necessary. "I don't know," he said, "but I don't know enough to know enough."

The investigation will examine what went wrong but also whether the groups that were given the information were reliable. The investigation will examine what went wrong but also whether the groups that were given the information were reliable.

# GenSan folk warned vs 'GMA project'

**GENERAL SANTOS CITY**—The city government has warned residents here against an alleged bogus housing project of President Manuel Roxas.

Antonio Bernaldo, head of the City Housing and Land Management Office (CHLO), said the city opposed the project being organized by the Institute for the Urban Poor (IUP) Inc. because it does not have an office in the lowest housing project.

IUP, which helped build a Community Housing Program (CHP) and Housing for All (HFA) project, said it is a legitimate housing project and the project is part of the loan of the Presidential Office for General Services.

He identified a certain Institute for Urban Poor as the project.

He said that he has been seeing applications for the project, but he has not collected any money in his name.

When asked why the implementation of the project was not properly conducted, he said the IUP is a bogus project.

## UP cager faces fight of his life

By Dennis M. Eno

**UNIVERSITY** of the Philippines player-athlete Jose "Jun" Tambogo, whose stand the below his huge appetite for winning, is facing the biggest fight of his young life.

Only 22, the sophomore Arts and Letters resident from Diliman Campus, he has developed illness and various chronic, successfully diagnosed with lymphoma.

Lymphoma is a blood cancer, encompassing a variety of cancers of the lymphatic system, which help filter and protect and is associated

with fighting diseases.

The 5-foot-7 Tambogo, a point guard two years ago from the U.P. Box and Ball Club, acted as backup for three to four last year.

He was with coach Alexander Lina, Teneo and Eugene Mendoza and

and U.P. Box and Ball Club members when the U.P. Box and Ball Club won the 1999 UAAP National Cup basketball championship.

"It's a long good life, I have not fighting but no one expects him," said Tambogo's coach, coach Alexander Lina.

Tambogo's coach from grade school to high school.

Tambogo said it took him two days before leaving the game to join Tambogo upon learning of his recent health condition.

"He, his last season of the U.P. Box and Ball Club, was very good in U.P. and the whole team. He's a very good player and he's in this fight."

Lina, 6-foot-10, U.P. coach, and a coach in U.P. Box and Ball Club, is helping Tambogo.

# DBP opens P1.7-B credit facility for NFA, millers

By Christian S. Zepeda

**THE DEVELOPMENT Bank of the Philippines** has opened a P1.7-billion credit facility for the modernization of state-owned National Food Authority (NFA) and other rice milling industry.

"This is the first time in NFA's 25-year history that it will undertake a post-harvest losses reduction program," says NFA President and CEO, "We will also be improving its infrastructure."

The DBP said the DBP has already agreed the modernization of agriculture that will be presented to President Manzano during his visit to the Philippines International Convention Center.

One of the DBP facility is a P100-million loan that could be availed of by NFA.

In a separate interview, Philip-

pine Confederation of Rice Millers president Jay C. said the DBP loan would allow them to pay up state-of-the-art equipment that could improve the recovery of quality rice grains.

"With the said loan, we can acquire retired millers and processors facilities that could also improve the quality of rice grains," said Jay C.

He said the modernization program could help maintain the country's rice production, which runs some P1 billion per year.

## 2003 budget deficit at P199.8B

By Denise S. Bello

**THE MANAGING** administration is expected to announce today the final budget deficit for last year.

Based on the latest figures, the 2003 budget deficit is expected to be P199.8 billion, which is below the P200 billion ceiling.

For the year, the government is aiming to keep the gap between revenue and expenditure at P199.8 billion, even after the Development Budget Coordination Committee increased the revenue goal by P12.5 billion to P212.3 billion.

The revenue goal was originally set at P212.3 billion, but the government will use the additional revenue to finance expenditure on top of the P199.8 billion in borrowing to improve the quality of the Bureau of Government's debt.

Investment income and the P12.5 billion in additional revenue would be used to reduce the government's borrowing to P199.8 billion.

The additional revenue would come from the adjustment in the goals of the Bureau of Government's debt, the Bureau of Treasury, the Bureau of Finance, the Bureau of Customs, and the Bureau of Internal Revenue.

## Citigroup gives RP 'underweight' rating

By Don C. Denton

THE PHILIPPINES might get a similar view of Citigroup Finance Asia's assessment of the country's emerging political economy.

In its global economic outlook released yesterday, CFI said it rated Thailand, Malaysia, Taiwan and Hong Kong higher due to their higher growth prospects.

The outlook was not so rosy for the Philippines because of what CFI called its "incomplete" economic growth.

Karl Ross, CFI's head for investments in Asia Pacific and the Middle East, said the assessment was based on how the Philippines fared against other Asian nations.

"If possible in the Philippines, the system of one country, could find that it's not as low as

expected compared to Thailand or Taiwan. That's not necessarily about the U.S.," Ross explained.

The American bank, however, indicated optimism about the country's private sector management.

"The Philippine market is extremely important to us. Our private sector is very strong and has helped 100 years and more of our relationship. We've spent a lot of money here," CFI said for the Philippines. Ross said.

"There is still much progress potential in the market, which is why we have expanded our equity capabilities in terms of banks, securities and investment products," Ross added.

On the global front, CFI's New York-based global investment strategy chief, Ross, said there were "some opportunities" as well as "continued uncertainty" in 2004.

## Yamaha expects 66% rise in motorcycle sales in '04

By Michelle Y. Reyes

MOTORCYCLE maker Yamaha Motor Co. Ltd. of Japan expects sales to grow by as much as 66 percent this year as the lack of an aggressive marketing campaign and the introduction of new models.

According to Masahiko Saito, Yamaha's vice president for marketing, Yamaha expects sales to hit about 10 percent below the year-end 2003.

The 2004 sales target for the next year is in the order of about 10,000 motorcycle units compared with 10,000 units sold last year.

"The company's overall assessment is that the market has improved and is expected to be better. Motorcycle manufacturers in the country are optimistic; the Philippines will soon reach the average levels of Thailand and

Indonesia," Saito added.

Indonesia and Thailand are the two biggest motorcycle producers in Southeast Asia.

Also, the said Yamaha hoped to gain 10 percent share of the motorcycle market from its 10 percent level last year.

Yamaha currently accounts for about 40 percent of the market.

Yamaha recently introduced three new models: the Yamaha R1, Yamaha R2 and Yamaha R3. This is the first time that Yamaha will be competing in the motorcycle market.

The introduction of the new motorcycle is the beginning of the end.

Also, Yamaha would focus on demand from Japanese motorcycle buyers.

Yamaha's sales in the Philippines are expected to rise 66 percent of sales last year.

Community Oasis

At Toyota, our strong commitment to environmental protection is based on a sense of global responsibility. Our extensive research program and testing that principles are achieved by creating a clean, green environment for Toyota employees to work in, as well as create as much for the community, and put something back to the earth that values us all. As part of our commitment to sustainable development, we will continue to invest in research and development to create a better world for generations to come.

# You can gain weight on a low-carb diet

**Y**OU know a diet has become a cultural phenomenon, but it's also, since the Internet's rise, a tool for the food industry. The low-carb diet, for instance, has been "invented" in the last 10 years and is expected to be one of the most profitable of the century of low-carb products.

Well, since we're talking and a major revelation is going on in the American food industry that where America goes, the rest of the Western world is sure to follow.

Independent studies that used as few as 10 to 15 low-carb diets have been transformed into low-carb diet studies. In California (where it's a must-have diet), a study found that eating only low-carb products can burn 500 calories a day, or 5,000 a week. That's a lot of calories. It has been found that low-carb diets can burn 500

calories a day. In fact, the low-carb diet has been found to be one of the most profitable of the century of low-carb products. In fact, the low-carb diet has been found to be one of the most profitable of the century of low-carb products.

And, in fact, the low-carb diet has been found to be one of the most profitable of the century of low-carb products. In fact, the low-carb diet has been found to be one of the most profitable of the century of low-carb products.

**WELL AND GOOD**  
**JINXO JAXON**

be found directly in the success and popularity of the Atkins diet, which is the low-carb diet that has been found to be one of the most profitable of the century of low-carb products.

The original Atkins diet was a low-carb diet that was found to be one of the most profitable of the century of low-carb products. In fact, the low-carb diet has been found to be one of the most profitable of the century of low-carb products.

## EXERCISE OF THE WEEK Inner thigh stretch on stability ball

THIS exercise stretches the muscles in the inner thighs.

- Equipment:** Stability ball, a resistance band, a chair, a mat.
- How to do it:**
1. Sit on the edge of the ball with both legs spread wide apart, feet flat on the floor.
  2. Straighten your right leg and pull your right foot toward your chest.
  3. Pull the ball toward your left leg and pull the right leg toward your chest.
  4. Hold for 30 seconds, then switch legs.

so they can lose their role and get it back.
